BEAUTY THERAPY AND AESTHETIC CLINIC

## About Me

They say success is born out of passion, a need and desire... and that is definitely what I am all about.

My passion is for life-long learning and keeping up to date in the ever changing world of beauty. My desire is to make every woman feel beautiful both inside and out.

Luckily for me I had the best role model to aspire to be.... my mother is a “mogul” in the beauty industry and from before I can remember she told me to “cleanse, tone and moisturise”. She installed the mantra “better skin for life” and that’s when the skin specialist in me was born!

Although I love every aspect of beauty, Skin Care is where I excel and I have won numerous awards for my expertise in both facials and skin care advice.

After having our own skin clinic in Newmarket I then became an Area Manager and Trainer for two of the very best professional skin care companies in the beauty industry.

I am now fortunate enough to bring everything I have learnt over the last 15 years to work for myself once again and pass down this knowledge to my wonderful clients.

All of my clients deserve the very best, and this is why I strive to give them the best customer service, the best in treatments and a complete sense of belonging whilst tending to their individual needs.

I look forward to meeting you!

# Injectable Treatments

## Profilo

The “injectable moisturiser” that not only hydrates the skin but also boosts the skin’s elastin and collagen levels. A biostimulator that kickstarts significant renewal within the skin. A runny form of Hyaluronic Acid, injected at 5 key points, either side of the face. One in place, it boosts hydration and makes the skin firmer and bouncier. It can be used on the face, back of the hands and the neck. Anyone from their 30s can benefit from this treatment to keep skin strong and in good condition. Also, for those who have noticed the first signs of ageing and skin laxity. For those who feel their skin quality has worsened, or skin appears lax and crepey, this treatment is for you. Treatment is done over 3 (sometimes 3) sessions, 4 weeks apart.

## Anti-wrinkle injections

Wrinkles and facial lines can be softened using botulinum toxin type A (Botox). Ageing, muscle activity, too much sun exposure, alcohol consumption and smoking can all contribute to these lines and make you look older than you are. Anti-wrinkle injections can target specific muscles and cause the muscle to relax. This leaves the overlying skin looking smoother and more youthful. Treatment is not painful and fairly quick. Results can be seen after seven days and can last up to 3 or 4 months depending on the individual with maintenance the effects of treatment will last longer.

## Dermal Fillers

As we age the skin loses volume and elasticity. Fat can descend, skin becomes thinner and lines, wrinkles and folds develop. Hyaluronic acid

can be injected into the skin to restore volume and add hydration to the skin. Dermal fillers can be placed in the lips, cheeks, jaw, chin and nose. The effects can be seen instantly but will improve over the next couple of months. Results can last up to 6-12 months, depending on the individual and the product used.

# Semi Permanent Makeup

## Microblading £280

(12 month top up £140)

Microblading is a tattooing technique in which a small handheld tool made of several tiny needles is used to add semi-permanent pigment to the skin. Microblading differs from standard eyebrow tattooing because each hairstroke is created by hand using a blade which creates fine slices in the skin, whereas eyebrow tattoos are done with a machine and single needle. Microblading is typically used on eyebrows to create, enhance or reshape their appearance in terms of both shape and colour.

## Ombre Blush Brow

£320

The internationally recognised treatment is known for its ultimate polished look which instantly changes ...YOUR BROW GAME. What is The Ombre Blush Brow®? The technique is an over dramatised fade where the brow is significantly lighter in the front then gets deeper in colour as you move throughout the brow to the end. The effect is a brow that looks soft at the beginning and slowly begins to get more defined towards the end of your brow. The Ombre Blush Brow® result is soft and fluffy with a pop of definition, which looks great with or without makeup.
